

Finance Deux

F2_Finance & Fun

F2. The name says it all: it means F to the power of two. Finance & Fun. It's an equation that simply demonstrates that happiness is the result of your success. And that is exactly what we strive at: taking care of finances and making sure your experience is enriched and fun.

With F2, finance can be fun!

OUR VISION

Our world is growing through creative minds in every aspect of business that you can think of.
We, a creative company ourselves, align our minds with this vision and approach.

Our goal is to support and help creative entrepreneurs develop what they are good at. How?
By taking care of their finances with their vision in mind, allowing them to focus on their talent.

We achieve this by accompanying your efforts permanently.

The result: great finances and a lot of fun!

OUR SERVICES

SPECIALIZED BOOKKEEPING

Our team offers a specialized bookkeeping service. In addition to the daily management of your clients and suppliers, we examine the progress of your cash flow and we develop performance indicators that are suited to your reality. Paired with precise financial information, you possess all the necessary tools that help you make the right decisions.

Your financial information is processed with the objective of minimizing the costs when working with accounting companies and tax specialists. We will negotiate fees for you with these partners in order to obtain the best possible price.

AD-HOC

As accounting, finances and management specialists, we offer an ad-hoc service for mandates that are non-recurring. Business plans, budget forecasts or investors relations, no matter what your needs are, we can empower you with the proper tools for success.

For company acquisitions, accelerated growth management, or international expansions, our expertise caters to both consultant firms and manufacturing companies.

PERMANENT ACCOMPANIMENT

It's our vision of a mutually enriching partnership. A permanent and efficient connection. Permanent accompaniment is like having a company CFO right under your roof. We get to know your company, your partners and your employees inside out. We become part of your DNA and have the feel and knowledge of when we should intervene. Most creative companies don't need a full-time CFO on board. Our solution is flexible and adapted to your specific needs.

ACCOMPANIMENT

REPRESENTATION: We ensure accounting and financial representation of your firm with financial institutions, development organizations and various government authorities. We become your business interface with accountants, tax specialists and lawyers, therefore assuring financial credibility with all your business partners.

CONSULTATION: We accompany you in every step to make sure you achieve your goals and help you make the right decisions along the way. Our objectives are simple: they're yours. We guide you through your external role of growth and the internal role of control.

EXPANSION: We provide you with the necessary documentation and tools. Want to start a new project, buyout competition or conquer Europe? We'll make sure you'll have all the right information needed to proceed with your dreams and help you achieve them. Business plans, financial previsions and investment meetings, whatever is needed, we will provide you with the proper tools.

FINANCE AND ACCOUNTING: In order to ensure optimal comprehension of your company, we take care of the integrality of your accounting operations. We offer specialized bookkeeping which will enable you to take the appropriate business decisions based on reliable and precise financial information.

FUN : With us you'll discover that finance can be fun, especially when things are really looking up. And when success comes, we will be there to celebrate with you!

OUR CLIENTS

We believe in absolute trust and networking. We cherish loyalty.
Our customers are not competition but allies.
